CONCRETE BENCH 157

630.00 €

The bench is made of high-performance reinforced fiber concrete and aggregate of natural marble or granite stones, in a different color combination. All surfaces are polished and further varnished, which makes the product even more resistant to aggressive weathering and reduces the deposition of dirt. It embodies the corporate philosophy of the power of ordinary things. The classic clean shape of the concrete bench gives convenience and practicality, making it an elegant addition to the landscape design.
