CONCRETE BENCH 238

321.00 €

Concrete bench with backrest and seating area made out of certified wood. The legs are produced of high-performance reinforced fiber concrete and natural aggregate. The aggregate structure is a combination of natural marble or granite stones of a certain size in different color combinations. The concrete surface has a characteristic fine relief. The addition of protective coating on concrete and wood components makes the product even more resistant to aggressive weather conditions. A bench that brings together the universal vibrancy of the modern urban life and is complementary to any landscape design.

Diameter: 200.0 cm

Length: 38.0 cm
