CONCRETE BENCH 268 E ER Resysta exposed aggregate

The **268-E** bench model is made from high-strength fiber-reinforced concrete with a homogeneous structure of natural marble or granite stones. The structural aggregates are precisely sized and come in various color combinations, setting the main textures: white, scatter, gray, or brown. The stylishly curved form combined with the delicate relief of the embossed surface is complemented by the natural warmth of the wood. The metal components making up the seat and back of the bench are made of stainless steel. The seat and backrest are made of premium wood, avail ...
