CONCRETE BENCH 120 ES

Concrete bench with backrest and seating area of certified wood. It is made in combination of high-performance reinforced fiber concrete and natural aggregate. The structure of the aggregate is a combination of natural marble or granite stones of a certain size in different color combinations. All concrete surfaces are completely polished. Certified wood and concrete are further treated with a protective coating, which makes the product even more resistant to aggressive weather conditions. T.The metal elements connecting the wooden structure to the concrete are ...
